Bring your vision to life!

VIKANSHU GROUP

ABOUT GROUP

With over **40 years** of experience in the construction industry, **Vikanshu Petrochem** has earned its reputation as a trusted leader, contributing significantly to infrastructure development across various regions.

Established in 2018, **Aldeko** proudly upholds this legacy by providing innovative solutions designed to meet the dynamic needs of modern construction. Rooted in the strong foundation set by **Vikanshu Petrochem**, **Aldeko** is committed to innovation and excellence. Specializing in the production of Aluminium and Metal Composite Panels (ACP), we create premium products that inspire modern aesthetics and open up exciting possibilities for architectural design.

At **Aldeko**, we place a strong emphasis on quality, sustainability, and exceptional customer care. Our materials are meticulously crafted to stand out and leave a lasting impression in any setting. We believe that outstanding projects require outstanding materials, which is why our advanced manufacturing facility in **Kotdwar, Uttarakhand**, ensures every product meets the highest quality standards.

With a comprehensive distribution network and a dedicated support team, we provide seamless delivery and reliable service throughout India. Our extensive range of colors and finishes offers the versatility to bring your unique vision to life.

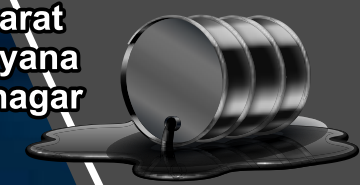

Customer satisfaction is at the core of everything we do—your success is our success. Build better with **Aldeko**, and together, let's create something extraordinary.

Bring your vision to life!

VIKANSHU GROUP MILESTONE

A little History About ACP

Aluminium Composite Panels (ACP) were first introduced in 1969, marking the beginning of a revolutionary development in building materials. Over the years, their adoption witnessed an exponential rise as architects, fabricators, and building owners recognized their numerous functional benefits and the stunning design possibilities they offered. This versatile material quickly became a favorite in the construction and design industries due to its lightweight structure, durability, and ability to achieve a sleek, modern aesthetic. ACP transformed the way buildings were conceived, allowing for innovative facades and creative architectural expressions that seamlessly combined form and function.

In Contract law, a warranty has various meanings but generally means a guarantee or promise. We at Aldeko promise to warrant the product for 12 Years against delamination, fading and chalking, as we believe it helps in building long term relations.

Panel Composition

Aluminium Composite Panels (ACP), made of Aluminium Composite Material (ACM), are flat panels consisting of two thin coil-coated Aluminium Sheet bonded to a non-aluminium core. The pictorial reference on the left explain the core composition.

YOUR SPACES

WABI SABI

● ● ● SERIES

More than a decorative style, Wabi Sabi is a philosophy of life; a way of living and perceiving the world, with the aim of peacefully accepting the natural cycle of growth and decay inherent in life.

At Aldeko Panels, we have created "Wabi Sabi" series that bring into homes simplicity and authenticity. It is about the aesthetic of things in existence that are "imperfect, impermanent and incomplete."

Wabi-sabi is a Japanese aesthetic and worldview that embraces the beauty of imperfection, impermanence, and the natural cycle of growth and decay. Rooted in Zen Buddhism, it encourages an appreciation of the transient and the imperfect, focusing on the understated, rustic, and authentic aspects of life.

STONE

● ● ● SERIES

We all keep rolling in life, just as a stone keeps rolling down a hill. All that matters is to be as strong as a stone to stay motivated.

With this motive, Aldeko Panels has designed this stone series. Try this series in the interior of your house or even the exteriors of your corporate buildings. Lets bring a revolution in the industry of architectural decoration.

“Spectra your final choice has arrived”

ALDEKO Panels, the first Indian
manufacture to bring it to you

ALDEKO Spectra Aluminium Composite Panel is inspired by nature changes, either from the peace of creek, the depth of Blue Ocean, the golden of cool autumn, the growth of flowers and plants or from the sunset of a day... All these mysterious natural phenomena become the fountain of **ALDEKO** Spectra creation.

By adopting different special pigments and color ingredients for the color coating process, **ALDEKO** Spectra best imitates the change of nature. Depending on the view angles and lights that are reflected to the panel surface, the color of **ALDEKO** Spectra looks different. It brings a new visual appreciation to your buildings.

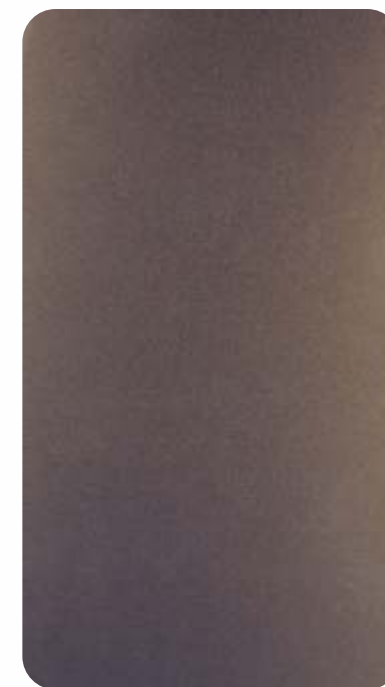

POISON
Series

ALP 307 Sunset Red

The Sunset Red is merely a prelude to the dawn, yet its majesty fills ones mind with the most beautiful of dreams, there is a distinct radiant about **"Sunset Red" the Spectra Colour**

ALP 308 Ocean Blue

The Ocean Blue. Calm and gentle. Subtle and sweet. The appearance of someone completely at peace, without a care in the world, there is a distinct tranquility about **"Ocean Blue" the Spectra Colour**

ALP 309 Daylight

The watery daylight pushed back at the darkened edges of dawn, reclaiming the colours of the day that had been washed into grey by the moonlit night. The world came back like a freshly developed photograph; every colour would appear bright and new. That's what wea **ALDEKO Spectra call "Daylight"**

SOME REALIZATIONS WITH

ALDEKO

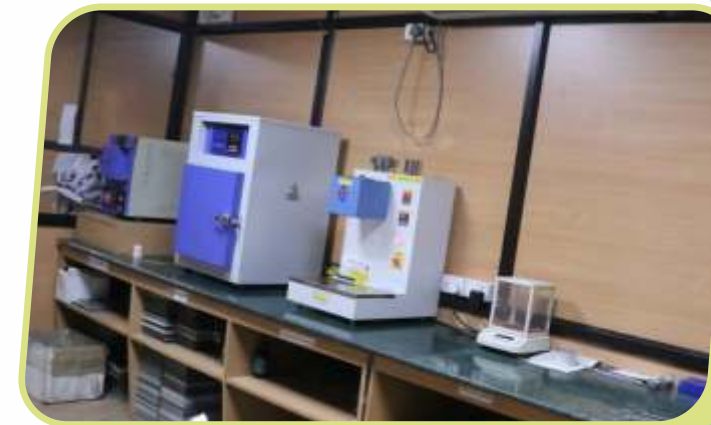

What is ACP ?

Be Artistic or adventures and explore the contemporary buildings in practically any city in India, and you're bound to see many examples of a transformational architectural material, although you might not realize it. Aluminium Composite Panels (ACP) have reshaped the skyline, enabling architects to realise their visions which happened to be impractical or quite impossible less than 50 years ago.
