FIN & FLUTED

With over **40 years** of experience in the construction industry, **Vikanshu Petrochem** has earned its reputation as a trusted leader, contributing significantly to infrastructure development across various regions.

Established in 2018, **Aldeko** proudly upholds this legacy by providing innovative solutions designed to meet the dynamic needs of modern construction. Rooted in the strong foundation set by **Vikanshu Petrochem**, **Aldeko** is committed to innovation and excellence. Specializing in the production of Aluminium and Metal Composite Panels (ACP), we create premium products that inspire modern aesthetics and open up exciting possibilities for architectural design.

At **Aldeko**, we place a strong emphasis on quality, sustainability, and exceptional customer care. Our materials are meticulously crafted to stand out and leave a lasting impression in any setting. We believe that outstanding projects require outstanding materials, which is why our advanced manufacturing facility in **Kotdwar, Uttarakhand**, ensures every product meets the highest quality standards.

With a comprehensive distribution network and a dedicated support team, we provide seamless delivery and reliable service throughout India. Our extensive range of colors and finishes offers the versatility to bring your unique vision to life.

Customer satisfaction is at the core of everything we do—your success is our success. Build better with **Aldeko**, and together, let's create something extraordinary.

SUBHASH GOEL
Founder, Vikanshu Group

Chairman's message

Shubhash Goel – The Visionary Behind Aldeko

With over 40 years of industry expertise, Vikanshu Petrochem has been a trusted name in construction. Building on this legacy, Mr. Shubhash Goel founded Aldeko in 2018, introducing innovative, durable, and aesthetic Aluminium Composite Panels (ACP) for modern architecture.

Backed by a state-of-the-art facility in Uttarakhand, a diverse range of premium finishes, and a strong distribution network, Aldeko is redefining architectural excellence with quality, sustainability, and innovation.

Your vision, our innovation!

A photograph of a modern building facade made of light-colored rectangular panels. Large windows with blue-tinted glass are visible. The building features horizontal teal-colored decorative bands. The 'ALDEKO' logo is prominently displayed in large, 3D black letters with a green 'E'. Below it, 'Aluminium Panel Sheets' is written in smaller, black, sans-serif capital letters.

VIKANSHU GROUP

MILESTONE

FOUNDATION

Started bitumen transport business with two trucks

1984

SCALING

100+ trucks covered all PWD dept. Haryana.

2000

NEW OPENINGS

Started manufacturing unit of bituminous products in Panipat Haryana.

2007

SCALING

Increased production capacity to 30,000 Metric Tonne annually.

2012

GROWING

Entered into import of petroleum products from gulf countries.

2013

NEW OPENING

Entered into the world of ACP by the name of ALDEKO with production capacity of 12 Lac sqft. per month.

2018

2021

SCALING

Increased the production capacity to 25 Lac sqft. per month

2023

SCALING

Newly Launched WPC & SILICONE Products

2025

SCALING

Newly Launched Fin & Fluted Louvers

PRODUCTS FROM VIKANSHU PETROCHEM

- * Bitumen
- * Base Oil
- * Rubber Process Oil
- * Tyre Oil

WAREHOUSES

The hub of sophistications

Believing in getting it right the first time and in investing in top technology, Aldeko set up its manufacturing facility of 50000 SQFT with a fully automated german technology line with 25 lac sq ft per month production capacity. Aldeko operates from its head office in Delhi but its state of art manufacturing facility is in Kotdwar, Uttarakhand.

The entire complex is well pre-planned to aid in manufacturing, in comfort and ease of working for employees and for precision quality control levels at each stage. the sandwiching and packing and dispatch processes are finely controlled by computerised control units with constant visual monitoring facility.

MANUFACTURING FACILITY

Quality

Each square meter of our product represents flawless perfection.

Aldeko's rise to leadership position in the ACP market and as a supplier of top import substitute product is primarily due to our extreme and fanatical attention to quality. Automation is key to consistency but it is overlaid with rigidly defined quality procedures. We are strict about the raw material we source. Aluminium coil rolls and other raw material receive a thorough check for metallurgical properties and for surface finish before being accepted for further process.

The next steps are the sandwich process, which in turn imparts the consistently beautiful finish. At each stage we have machine quality control, sampling tests and physical tests for consistency and performance across all defined parameters.

EXTERIOR

CATEGORY

WHY ALDEKO LOUVERS

- SIMPLE TO INSTALL AND READY TO USE
- AVAILABLE IN A WIDE RANGE OF COLORS
- RESISTANT TO WATER AND TERMITES
- PERFECT FOR CONTROLLING AIRFLOW & IMPROVING VENTILATION
- PERFECT FOR RESIDENTIAL & COMMERCIAL BUILDINGS
- COMPLETELY MAINTENANCE-FREE
