Talking Over OUR STORY

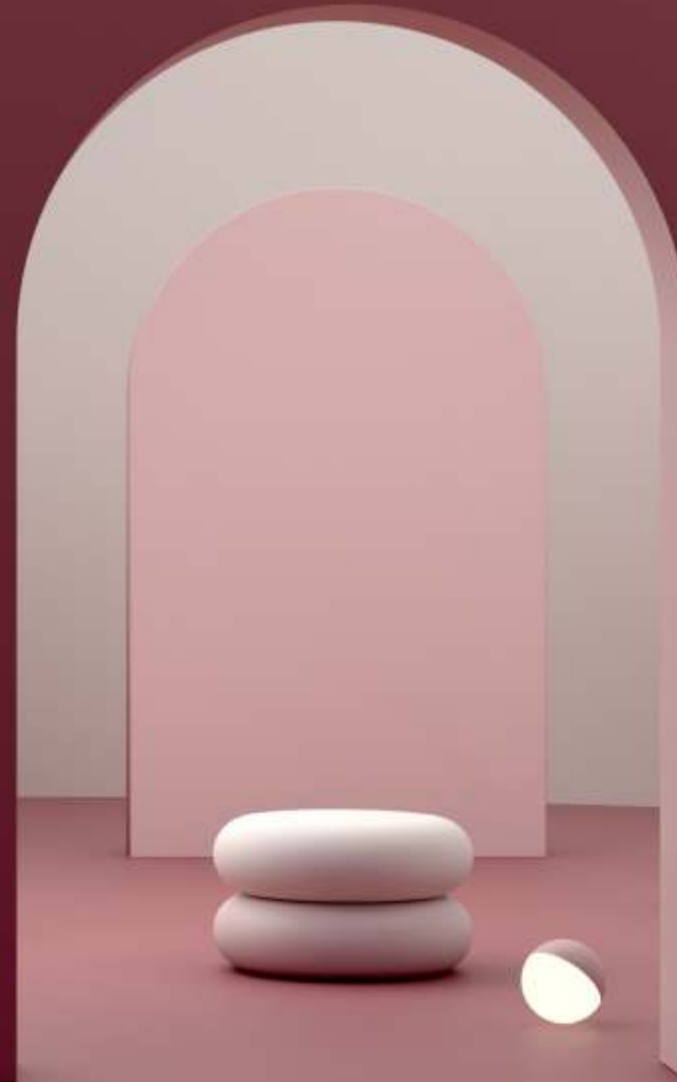

As **Aldeko**, established in 2018, we proudly build upon a profound **40-year** legacy of excellence in the construction industry, pioneered by **Vikanshu Petrochem**. This deep-rooted experience has earned us a reputation as a trusted leader, contributing significantly to India's infrastructure development across diverse regions.

At **Aldeko**, we are committed to delivering innovative solutions that meet the dynamic needs of modern construction. Specializing in the production of high-performance Aluminium and Metal Composite Panels (ACP), WPC LOUVERS, ACRYLIC, WALL PANELS, SOFFIT, our premium products are engineered to redefine modern aesthetics and unlock new possibilities in architectural design. We offer unmatched versatility, superior durability, weather resistance, and stunning visual impact for both interior and exterior applications.

Our unwavering commitment to quality, sustainability, and exceptional customer care forms the bedrock of our operations. Each panel is meticulously crafted at our advanced manufacturing facility in Kotdwar, Uttarakhand & Second unit in Sonipat, Haryana which adheres to stringent quality controls and relevant industry certifications. We also integrate sustainable practices throughout our production process to minimize environmental impact.

With a comprehensive distribution network and a dedicated support team, we provide seamless delivery and reliable service throughout India. Our extensive range of colors and finishes, offering from classic to contemporary, provides the versatility to bring any unique architectural vision to life.

Customer satisfaction is at the core of everything we do – your success is our success. Partner with **Aldeko**, and together, let's create something truly extraordinary.

About Walluxe

Aldeko WALLUXE is a revolutionary interior wall decoration solution that combines aesthetic elegance with advanced environmental technology. Designed for the modern home and commercial space, these boards represent a significant leap forward in interior design, offering a direct-to-wall application and a ready-to-use format that simplifies and accelerates the renovation process.

With Aldeko walluxe you no longer have to choose between a beautiful interior and a healthy, durable, and low-maintenance one. The boards are available in a diverse palette of designs, allowing you to create stunning feature walls, elegant TV backdrops, or a cohesive look throughout a room. Their versatility and seamless finish make them suitable for a wide range of interior styles, from minimalist and modern to classic and luxurious.

What is Walluxe

Innovative Technology for a Healthier & More Durable Space The core of Aldeko WALLUXE is its unique composition, which integrates activated composite material into the panel. This provides a range of functional benefits that go beyond simple aesthetics:

A laminated hybrid sheet that will make wood paneling, laminates, wall papers and texture paints obsolete with its revolutionary cost and its remarkable application directly on walls, ceilings, furniture and fixtures.

Waterproof, termite proof, mold resistant, everlasting, stunning looks, seamless finish, bending capabilities, light weight, stain resistant, easy to clean, and quick to install are just few of its features and with a warranty of 10 Years.

its nothing less than a SENSATION !

Flexible and Bendable

A key feature of these boards is their remarkable flexibility. They are designed to be 90-degree bendable, allowing for seamless and continuous application around corners without the need for additional joints, trims, or cutting. This innovation ensures a flawless, high-end finish, especially for intricate designs and curved surfaces.

Seamless Installation & Zero Maintenance:

Aldeko walluxe are engineered for ultimate convenience. The "direct-to-wall" technology means they can be installed directly onto a clean, flat wall surface, eliminating the need for extensive preparatory work or a separate framework. This simplifies the process, reducing installation time and labor costs.

Ready-to-use

The "ready-to-use" format means each panel comes pre-finished with a decorative layer, available in a variety of sophisticated designs, including realistic wood grains, marble, and contemporary textures. This eliminates the need for any additional finishing treatments like painting or polishing, making them maintenance-free and allowing for instant transformation of any space.
